## A Day in the Life ...

The Associate in Applied Science degree program in Medical Office Management prepares graduates for entry level positions in medical billing, medical reports production, medical insurance reporting, and medical records. The program's concentration of medical courses provides a strong background for employment.

## Three Reasons to Consider Medical Office Management

1. Medical office careers are listed as one of the “fastest growing” in the Hudson Valley.
2. Internship experience for those who want to build their resumes working for regional companies.
3. Nationally accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

## Keep This in Mind

This program includes core courses in the medical field using modern office equipment in computer labs.

The number and variety of medical office environments is growing, from hospitals to long-term care facilities, imaging centers, and health maintenance organizations.

## Medical Office Management Gateway Courses:

- Gateway courses: OFT 108, BUS 103, ACC 153
- Key courses: BUS 203, RAD 219, MLT 110, OFT 220
