Prerequisite: PSY 111

PSY 230—Abnormal Psychology

3 cr. (Fall/Spring/Summer)

This course involves the study of past and present understandings of psychological abnormality. Contemporary psychological thinking relative to mental health and individual functioning reveals the range of forms of psychological abnormality. The diagnostic system that is utilized by mental health professionals in this country is examined. Social contexts and consequences of the diagnosis of psychological abnormality are identified. Fulfills Category B. (G3A)

Prerequisite: PSY 111

PSY 240—Social Psychology

3 cr. (Spring)

A study of group behavior and the influence of groups on the perception, thinking and behavior of the individual. Topics included are: socialization, conflict, attitudes, prejudice and leadership. Fulfills Category B.

Prerequisite: PSY 111

PSY 250—Human Sexuality

3 cr.

The sexual aspects of human activity are studied through the disciplines of sociology, psychology, biology, and philosophy. Historical, cross-cultural, and current research form the basis for the development of an individual perspective on human sexuality.

Prerequisite: PSY 111

PSY 260—Introduction to Counseling

3 cr.

SUNY Orange

The foundations for an integrated approach to counseling for the helping professional are introduced, as well as the nature of the helping process. Basic communication skills and interviewing, as well as an examination of the therapeutic relationship, formation of healthy professional boundaries, and importance of maintaining professionalism are covered. In addition, students will be exposed to a variety of theoretical approaches to counseling, including the psychodynamic, humanistic, cognitive-behavioral, and existential orientations. Integrated and trans-theoretical models will also be examined, including stage-wise theory of human change, motivational interviewing, and multimodal therapy models.

Prerequisite: PSY 111
