Career and Transfer Focus

This degree program is designed to parallel the bachelor's degree program at most four-year colleges in the region. Students who transfer may major in accounting, management, marketing, finance, human resources management, or international business.

Three Reasons to Consider Business Administration

1. Faculty are educated in their areas of expertise with real-world experience and are highly motivated to work with students, helping them achieve their goal of transferring to a four-year college.
2. The top occupations with the largest number of openings for the Hudson Valley region include professional business and service-related fields (according to the New York State Department of Labor).
3. Our program is nationally accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

Keep This in Mind

Students enrolled in this degree program acquire an understanding of the relationship between the liberal arts/social sciences and the management of business enterprises.

The required mathematics and economics courses provide a solid understanding for making proper business decisions.
