

◆ TRANSFER DEGREE M MIDDLETOWN CAMPUS DL DISTANCE LEARNING

Program Description

The Associate in Arts degree program in International Studies provides students with a range of studies that emphasize the interconnections among global political, economic, social, and cultural events and processes. As globalization literally makes the world a smaller place, International Studies helps prepare students to take advantage of those changes, both in terms of their personal growth and career opportunities. The degree is designed to prepare students for transfer and continued academic success within a liberal arts setting, especially one dedicated to the study of international and global events. This program also features a solid grounding in liberal arts education.

The curriculum is designed to include a broad range of courses with international themes in the humanities and social sciences. In addition to core courses in the liberal arts common to many programs, International Studies requires students to take classes in foreign languages, international relations, world history and international literature. Through these courses, students will develop critical learning skills, a foundation of knowledge about the international system and the ability to clearly write, analyze and communicate about concepts in the discipline.

This degree has been approved by SUNY and NYS Education Department for online distance learning delivery. This does not mean that SUNY Orange offers every course in the program online; however, many are offered in this format. Please check the current credit course schedule for online DL virtual course listings offered each semester.

Program Outcomes

Upon successful completion of this program, students will be able to:

- demonstrate foundational knowledge of and an appreciation for the cultural, social, and natural worlds
- recognize the diversity of human experience, values, and perspectives
- demonstrate an understanding of the forms of artistic expression and their creative processes
- apply critical thinking and systematic reasoning skills
- demonstrate information management, quantitative skills, and an understanding of the role of empirical measurement
- use effective oral and written communication skills
- transfer to, and succeed at, an upper-level institution
- understand the processes that contribute to globalization and increased interdependence among people, governments and states
